Senior Frontend Engineer with 6+ years of experience building production-grade web applications using React, Next.js, and TypeScript, supported by deep Angular experience in large-scale systems, with a focus on frontend architecture, performance, and auth-heavy products.

SELECTED PROJECTS

OfferLog - *Job Application ROI Tracker, production-grade personal CRM*

Stack: Next.js App Router, TypeScript, Prisma, PostgreSQL (Neon), Tailwind, shadcn/ui, Resend

DEMO: <https://offerlog.mognia.dev/> | **GitHub:** <https://github.com/mognia/offerlog>

- Shipped a production-grade, job application CRM with strict lifecycle rules, an event-driven timeline, and 7 dashboards (Action Center, Funnel, Speed, Outcomes, Hygiene, ROI, Role ROI).
- Engineered secure auth with DB-backed sessions, hashed tokens, HttpOnly cookies, email verification, password reset, full session revocation.
- Defined deterministic source bucketing for reliable charts and cohort-based metrics with timezone-aware computation.

JD Roaster - *Job Description linter with receipts*

Stack: Next.js, TypeScript, Tailwind, shadcn/ui

DEMO: <https://jdroaster.mognia.dev/> | **GitHub:** <https://github.com/mognia/jdroaster>

- Engineered a configurable rule engine with priority logic and scoped exclusions, covering 41 rule checks for deterministic, explainable results.
- Implemented a report UI with bidirectional navigation between findings and evidence.

SOPIX - *Multi-tenant SOP Execution Platform (Backend)*

Stack: Node.js, TypeScript, Prisma, PostgreSQL, JWT auth

GitHub: <https://github.com/mognia/sopix>

- Developed a backend system that lets companies create and manage step-by-step operational playbooks (SOPs) and track their execution.
- Enforced role-based access (Owner, Staff) so teams can safely create, publish, and run procedures.
- Established versioning logic so published SOPs are immutable and auditable.
- Added run tracking with step completion, optional photo proof uploads (auto-compressed $\leq 500\text{KB}$), and reporting APIs including Excel export.

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Angular, HTML5, CSS3, Tailwind CSS, shadcn/ui, Vitest

Architecture: Component libraries, design systems, micro frontends, performance optimization

Backend & Data: Node.js, Express, Prisma, PostgreSQL, REST APIs, auth (JWT, sessions), file upload pipelines

Tooling: Git, GitHub Actions, Vercel, Agile/Scrum
